Adjust for books or broadsheets.

# Finding it a strain to read print?

Shining a better light is an instant, painless, non-invasive way of seeing detail and colour more clearly.

High-definition light improves focus and clarity. It restores a blurred, frustrating world to vivid colours and rich detail.

- Fully dimmable natural light\*
- Variable beam width
- Recommended by over 500 opticians

The super bright light beam has been carefully engineered to mirror the daylight spectrum.

Building each light requires 224 bespoke components, 24 machines in five countries and the care of 85 technicians.

You can try one risk-free at home for 30 days. Love the difference it makes, or we will collect it and refund you in full. 98 in every 100 people who try one, love it and keep it.

You have nothing to lose.
